SECTION 6.0 - ACCIDENTAL RELEASE MEASURES

6.1.1 For Non-Emergency Personnel

See Section 8 of the SDS for Personal Protective Equipment.

6.1.2 For Emergency Responders

See Section 8 of the SDS for Personal Protective Equipment.

6.2 Environmental Precautions

No specific clean-up procedure noted.

6.3 Methods and Material for Containment and Cleaning Up

Dust and chips may be swept, scooped, and/or vacuumed for removal.

6.4 Reference to Other Sections

No additional references.

SECTION 7.0 - HANDLING AND STORAGE

7.1 Precautions and Safe Handling

Use work methods that minimize the creation of dust. Try to avoid the inhalation of dust wherever possible. Wear appropriate personal protective equipment. Wash hands after use. Observe good industrial hygiene practices. Ensure that forklift or similar equipment is rated as capable of lifting and moving loads. Forks should extend completely under the entire load. Forks should be extended as wide as practical. Panels are heavy, awkward loads and pose the risk of severe back injury. Always use proper lifting techniques.

7.2 Conditions of Safe Storage, Including any Incompatibilities

Panel should be stored in a cool dry environment and should remain in the manufacturer's packaging bearing the brand name and manufacturer's logo and Listing Number until ready for use. Panel should be stored on the manufacturer's pallets off the ground and away from standing water. Cover with a waterproof material when stored outdoors or on site to protect against weather, direct sunlight, surface contamination and construction traffic.

7.3 Specific End Use(s)

No additional information available.
